

PREDICTIVE, MEASURED PERFORMANCE

We work with companies to prevent failures and then predict the rest. With proactive versus reactive maintenance management, the result is major cost reduction, and greater return on assets by reducing maintenance costs, increasing production output, reducing capital expenditures and improving worker safety.

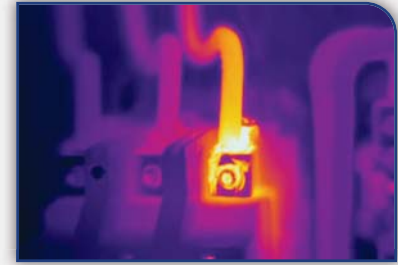

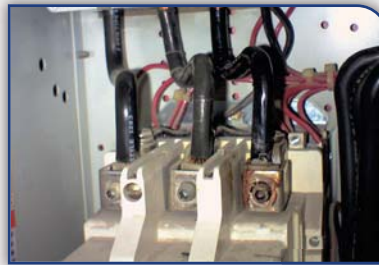

PREDICTIVE HEALTH MONITORING

- Vibration Analysis
- Infrared Thermography
- Ultrasound Analysis
- Motor Diagnostics

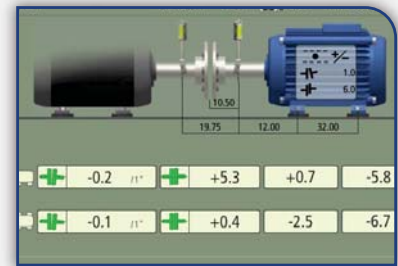

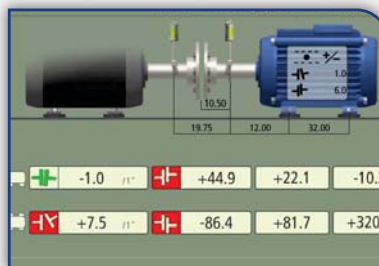

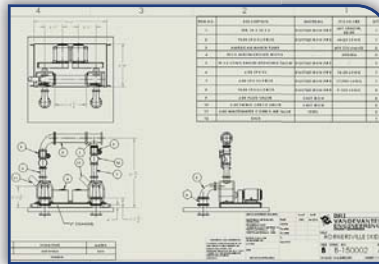

ANALYSIS SOLUTIONS

- Oil Analysis
- Failure Analysis
- ODS Analysis
- Pump Efficiency Audits

PERFORMANCE SERVICES

- Laser Alignment
- Dynamic Balancing
- Process Performance Optimization
- Wireless Health Monitoring Systems

Turnkey Solutions From the Cogent Companies
