

# SYSTEMS INTEGRATION

Combining best-in-class process and equipment experience with information technology knowledge, Catalyst engineers deliver effective water, wastewater and manufacturing process control systems. At Catalyst, we successfully improve processes, reduce costs and increase production by understanding and solving your most challenging problems.

## SYSTEM ENGINEERING

- SCADA Systems
- Wireless Remote Monitoring
- Process Control Systems
- Analytical and Process Instrumentation
- Turn-Key System Development and Installation

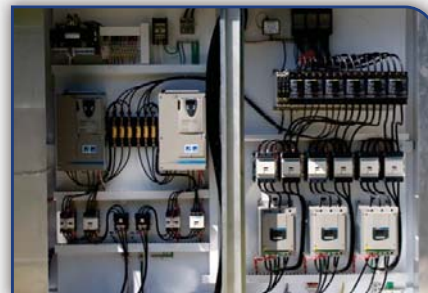

## MOTOR CONTROL SOLUTIONS

- UL508 Custom Control Panels
- Motor Controls
- Variable Speed Drives
- Soft Starters
- Shaft Power Monitors

## TECHNICAL SERVICES

- 24/7 Emergency Service
- PLC Programming
- System Troubleshooting and Repair
- Motor Diagnostic Services
- Instrument Calibration
- Maintenance Agreements
- Operator Training Programs
